## INVISIBLE.AC SMALL DUCT, HIGH VELOCITY AIR CONDITIONING SYSTEM FROM IBD DISTRIBUTION

### REALISING THE POTENTIAL OF RENEWABLE ENERGY SOURCES

Renewable energy solutions are at the top of everyone's agenda. Invisible.AC sdHVAC systems work seamlessly with air and ground source heat pump technology, the latest condensing units and traditional energy sources. From full climate control to heating/cooling solutions, Invisible.AC systems can be tailored to individual project requirements in both the new build and refurbishment residential and commercial sectors.

### ABOUT IBD DISTRIBUTION

IBD Distribution is the master distributor for the Invisible.AC system. The company offers comprehensive design, sales, technical support and training services. With its unrivalled long term experience with these types of systems, specifiers, contractors, distributors, self-builders and other users can be assured of trouble free installation and a system that will stand the test of time.

### INVISIBLE.AC

The market leading small duct high velocity air conditioning (sdHVAC) technology for UK & European markets. Design led, aesthetically pleasing systems delivering high performance heating, cooling and ventilation solutions. Incorporating the latest technology for the highest levels of energy efficiency.

### DESIGN AND PERFORMANCE FIRST

- 3-25kW capacity units powered by ebm.papst EC fans for optimum energy efficiency
- Innovative coil design brings higher cooling duties to size of unit
- Quick response time and minimal temperature variation
- Small 56mm distribution ducts snake their way through building's fabric
- Virtually silent and totally unobtrusive
- Discrete and stylish outlet grills
- Designed specifically for the European market
- Easy to install with total flexibility
- Zonal control and fully expandable

**HEATING – COOLING – VENTILATION – HEAT RECOVERY  
ALL THROUGH THE SAME SYSTEM**
